10. As an observer you can read and interact with the respondents posts with the tools located below each submission, however these will not be visible to respondents and will be for the moderators to see.

The first tool is a star rating - please see the image below. The star rating gives observers the chance to rate the respondent's post on a scale of 1-5 stars.

11. The second tool is the 'open notes' tool and this is an area for you to leave private comments on the respondent's post.
